

Not Sure If You Need Us?

Give us a call to discuss your concerns with one of our experienced and compassionate vets or nurses. We'll always try to give you an honest opinion, and we are happy to help, even if it means you end up not having to come and see us.

When You Need Us!

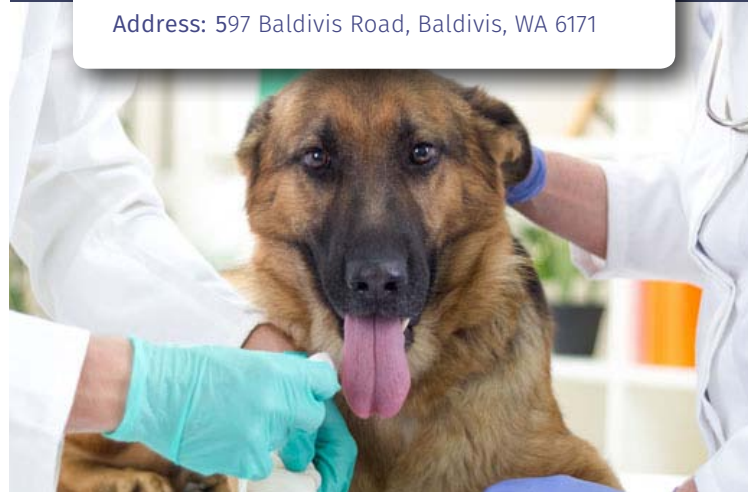

If it is possible please call ahead on 95241466 to tell us that you are coming down. This helps us to schedule a convenient time for you to try and avoid long waiting times, and allows us to prepare for your arrival in more serious cases. However, we are ALWAYS here, so you can just come straight down.

Baldivis Emergency Vet

FOR EMERGENCIES

WE'RE HERE WHEN
YOU NEED US!

JUST BECAUSE IT'S LATE AT NIGHT OR A PUBLIC HOLIDAY, DOES NOT MEAN YOU SHOULDN'T HAVE ACCESS TO A VET!

Whether your pet needs
life saving treatment,
or you just need some
peace of mind: we're
here for you, no
matter when.

In 2013 we realised that it was no longer possible for the vet clinics in our area to provide consistent care for our patients without a conveniently located, high quality after hours service. To fulfil this need we decided to always keep the doors at Baldvis Vet Hospital open by creating Baldvis Emergency Vet, or BEV for short.

Since our first quiet night on 1 August 2013 (when we saw one dog with a tooth infection!) we've gone from strength to strength, ensuring that you'll always have a vet available on your doorstep when you need one, no matter the time.

WHAT WE OFFER

BEV operates out of the newly refurbished facilities of Baldvis Vet Hospital. The hospital is fully equipped with everything we need to find answers and provide solutions, like a modern high care unit, multiple surgical suites, digital radiology, a complete in house laboratory, high quality ultrasound, endoscopy, and a wide range of monitoring and diagnostic equipment.

We always have experienced vets on site, supported by a team of wonderful nurses, so no matter how big or small your pet's problem; you can rest assured that we have the facilities and staff available to help.

Luckily not all problems are life and death, but that doesn't mean that it isn't still distressing for pets and their owners. We are always more than happy to see your pet, even if it's not a serious emergency. If it's a big enough problem for you to be worried about then it's important enough for us to help with.

We appreciate that every pet and every family is different, so we strive to customise our treatment plan to suit your particular needs by providing you with clear treatment options.

KINDNESS AND CARE DURING TIMES OF UNCERTAINTY
